

Manish Rengasamy

Assit. Operation Manager

As an experienced Assistant Operations Manager at Deccan Web Assets Pvt Ltd, I manage daily operations, streamline processes, and support administrative functions. In addition to my management role, I am a freelance web developer with expertise in HTML, CSS, and responsive design, helping businesses build professional and resposive websites. My passion for web development and strong operational skills allow me to bring efficiency and creativity to both my managerial and freelance roles, driving success in every project I undertake

Experience

2020 - Till Now

Deccan Web Assets Pvt Ltd-Banglore (Remote)

Asst. Operation Manager

Managing daily office operations to ensure efficiency and effectiveness, I coordinate resources, streamline processes, and implement strategies. My role includes maintaining clear communication with the main office, providing comprehensive reports on office functions to ensure alignment and support organizational goals.

2018 - 2020

Deccan Web Assets Pvt Ltd-Chennai

Operation Staff

Dedicated to supporting daily operations and ensuring seamless workflow, I handle various tasks including administrative duties, process coordination, and problem-solving. My role focuses on enhancing operational efficiency and maintaining high standards across all functions to support overall business objectives.

2015 - 2018

Deccan Web Assets Pvt Ltd-Chennai

Senior Game QA Tester

As a Game QA Tester, I specialize in monitoring live gaming environments to ensure seamless player experiences. My role involves identifying and reporting issues to management, ensuring that our games maintain high standards of quality. I leverage my expertise to provide insightful feedback and support the development team in delivering outstanding live gaming experiences

2015 - 2018

Deccan Web Assets Pvt Ltd-Chennai

Junior Game QA Tester

Responsible for testing gameplay and identifying errors, I report findings to senior team members to help refine and improve game quality.
